Instructions for Autumn Accents Metal Embossed Candle Jar:

Step 1 Open the My Digital Studio Program and choose **11" x 8 ½" Landscape** and click on **Create Project**. Name your project **"Autumn Candle Jar"**. You will now be lead to a blank page.

Step 2 Go to File, found in the upper left hand corner, click once and scroll down to choose **Page Setup**. When that screen opens enter the following values: **.167 for left, right, top, and bottom**. It is extremely important that you follow this step.

Step 3 Go to the Resource Palette found in the upper left hand column and choose **Background Papers and check off "Add as Page Layer"**. A screen will appear right below. Click on the **Browse Button** and the Background Papers Window will appear. Scroll down to **Designer Kits, choose Candlelight Christmas Designer Series Paper**, and click **Open**. Double-click on the **Candlelight Christmas 12**. Once the paper is on the page, double click on it, resize it, and change the color as shown in the video.

Step 4 Place the Add a Little Dazzle Transparency Film in the inkjet printer and follow instructions for printing. Allow the transparency to dry for about 5 minutes. Cut the Transparency Film to size, peel white film, and attach to the jar.

Step 5 Take the Outrageously Orange piece of metal, place it on the corresponding leaf on the Autumn Accents Big Die, and run it through the Big Shot. Then, place it in the Lacy Brocade Impressions Folder and run it through the Big Shot. Sand the leaf and clean off the metal residue. Use the 1/16" Handheld Hole Punch to punch a hole in the top of your leaf. Run a Wine Charm through the hole.

Step 6 Use Early Espresso Classic Ink to stamp the So Grateful image on a piece of Very Vanilla Card Stock. Cut out the piece using the Bitty Banners Framelits. Distress with Crumb Cake Classic Ink. Place Stampin' Dimensionals on the back and attach to the leaf. Tie a piece of Early Espresso Tulle Ribbon around the neck of the candle jar and cut off excess. Run a piece of Linen Thread through the button and attach with Hot Glue to the center of the bow. Take the piece assembled in Step 6 and attach it to the bow.
